

## St. Vincent's School Lisnagry

The following is a list of testimonials sent to us from parents whose children are currently attending our school.

“  
*Our son is a child with severe multiple difficulties, physical, intellectual, and medical. We were very apprehensive about sending him to any school in the beginning, but eventually decided that St. Vincent's was the best choice. Since then, we have never looked back or had any regrets. Our boy is such a happy little boy, he really enjoys all the activities, especially music. It's such a relief knowing that he is being cared for so well, in every way and to see the progressions he is making. The staff are all so dedicated, kind and caring and we know that he is receiving the best he can possibly get. It's like home from home*  
”

“  
*My son will be starting his last year in the school in September 2013 and will graduate in June 2014. It will be with great regret that he will leave his “safe haven”, for him and for me, as he is delighted to go to school every morning. He enjoys lots of activities such as music, P.E, special Olympics training, swimming, home economics etc. I know that while he is at school that he is in a safe caring environment where the teachers and staff only envisage the best for the children in their care. We are blessed to have St. Vincent's in this area*  
”

“  
*In a short few months we have gone from being anxious and worried about our child going to school to being happy and contented that the decision to go to St. Vincent's has been the correct one. We feel part of a team of people making the best decisions for our child and she is radiating such good vibes regarding school. She has gained a whole new set of friends, teachers and helpers and loves it.*  
”

“  
*Our son started in St. Vincent's Lisnagry in January 2011 and he is getting on so well. He has improved in so many ways – his speech has come on in leaps and bounds, his writing skills are improving everyday even though he is a solitary child by nature, he still interacts very well with others in his class. We are so thrilled that he goes to St. Vincent's Lisnagry and so is he.*  
”

“  
*Our son started in St. Vincent's in September 2012 and he really enjoys it. He loves waiting for the bus in the mornings. His confidence has grown immensely and that makes us as parents alot happier. We also get alot of support from the school which is one of the nicest things. If our son is happy we can't ask for much more*  
”

*“ Our daughter loves to go to St. Vincent’s. She sits by the window every morning waiting for the bus. (She doesn’t like it when she has a day off school!!) She has a wonderful teacher and the Special Needs Assistants are second to none. We are very happy to have chosen St. Vincent’s for our daughter. She has made such progress since she started. She is very happy in school. ”*
